

Certified Medical Assistant

Assists the professional nursing staff, physicians and nurse practitioners with both direct and indirect patient care.

DUTIES AND RESPONSIBILITIES

1. Room all patients prior to appointments: take vital signs, medication and allergy history, social history, past medical history, review of systems and prepare patient for physician/NP visit.
2. Perform EKGs; insure proper storage and billing of completed test.
3. Review electronic medical record as prepared by Medical Records to ensure completeness. Request records if not completed. (Work jointly with Medical Records).
4. Fax prescription refills as requested by RN/LPN/Advanced MA.
5. Complete all prior authorizations for medication refills
6. Properly utilize EHR system. Document simple nurse notes/clinical notes correctly and thoroughly in EHR system.
7. Answer clinical phone line and referral physician line. Triage and transfer call properly.
8. Communicate with patients professionally, clearly, and make appropriate allowances for patient's disabilities.
9. Assist MD/NP/Nurse/ Advanced MA in simple patient callbacks; i.e. normal test results, lipid management.
10. Maintain stocked exam room. Maintain clean environment during the day and at the end of the day per OSHA requirements.
11. Assist MD/NP/Nurse in all emergencies as instructed.
12. Ensure complete patient confidentiality. Adhere to HIPAA policies.
13. Assist as needed with all other clinical tasks depending on experience and direction of management.
